

# EQUIPMENT SPECIALISTS

SERVICE & CONSULTING

Available services listed below; please call with questions or to schedule an appointment.

**502.630.2318**

- **A.O. Smith/State National Account Certified Service Provider**
  - 24/7 Response
- **A.O. Smith/State Certified Warranty Service Provider**
  - Replacement parts in stock
  - 24/7 Response
- **A.O. Smith/State Certified Startup Provider for boilers and large commercial water heaters**
- **Domestic Hot Water Systems Equipment selection assistance**
  - Piping design
  - Circulating pump sizing
  - Water heater sizing
  - Water heater troubleshooting
  - Water heater startups
  - Water heater preventative maintenance
- **Flow Analysis**
  - Provides real time data of water usage to aid in sizing equipment
  - Helps identify if circulating pumps are providing adequate flow
- **Field Audits**
  - Evaluate applications to determine deficiencies that could contribute to premature equipment failure
- **Pumping Systems**
  - Equipment selection assistance
  - Circulating pump system design
  - Circulating pump sizing
  - Circulating pump troubleshooting
  - Circulating pump startups
  - Circulating pump preventative maintenance
- **Combustion Analysis**
  - Initial startup and combustion adjustment
  - Routine assessments to ensure proper combustion
- **Mixing Valve**
  - Equipment selection assistance
  - Mixing valve system design
  - Mixing valve sizing
  - Mixing valve troubleshooting
  - Mixing valve startups
  - Mixing valve preventative maintenance
- **Emergency Equipment Systems**
  - Equipment selection assistance
  - Emergency equipment system design
  - Emergency equipment sizing
  - Emergency equipment troubleshooting
  - Emergency equipment startups
  - Emergency equip. preventative maintenance
- **Water Softening Systems**
  - Equipment selection assistance
  - Water softening system design
  - Water softening sizing
  - Water softening troubleshooting
  - Water softening startups
  - Water softening preventative maintenance
- **Hydronic Heating Systems**
  - Equipment selection assistance
  - Hydronic heating system design
  - Hydronic heating sizing
  - Hydronic heating troubleshooting
  - Hydronic heating startups
  - Hydronic heating preventative maintenance
